

The world this week
Protecting our ocean

Where are we this week?

This country begins with a 'U'

It's in North America, near Mexico.

Its national animal is a bison!

It is the USA!

It's between the Pacific and the Atlantic Oceans and has a population of 332 million.

Its capital city is Washington, D.C.

UTC -4 to 9 hours

Hello!

Why is the USA in the news?

Because after days of talks in New York, the United Nations finally agreed on...

...a treaty to protect the earth's oceans!

Signed by over 100 countries, the High Seas Treaty outlines the rules for protecting nearly two thirds of the ocean.

It aims to keep ocean wildlife safe, stop water pollution...

...and make sure resources are used more sustainably!

Over to you!

Using the world map, where is the USA in relation to the Tropics and Equator? What do you think the climate is like?

Do you know any facts about the USA?

How many oceans are there on earth? Can you name them?

Over to you!

Why is the ocean so important?
What do we need to do to protect it?

Thank you!

***We'll see you next week for your new
"The World This Week" resource!***
