

The world this week
School farm

Where are we this week?

This country begins with a 'C'

It's in North America,
near the USA.

Its national
animal is a
beaver!

It is Canada!

It's the second largest country in the world with a population of 39.5 million.

Its capital city is Ottawa.

UTC -5 hours

Hello!

Why is Canada in the news?

Because one family in Hudson Bay started growing veggies for the whole town...

...inside an old school building!

The Nel family started growing lettuce in the old schoolhouse in 2019. Now they farm enough produce to feed 1,500 people!

Everything is grown in the special containers filled with water and nutrients...

...so people can buy greens, herbs and veggies even in the cold Canadian winter!

Over to you!

Using the world map, where is Canada in relation to the Tropics and Equator? What do you think the climate is like?

Do you know any facts about Canada?

Would you like to grow your own food at home/school?

Over to you!

Should we grow produce indoors all year around instead of using land and importing food?
List your arguments for and against!

Thank you!

***We'll see you next week for your new
"The World This Week" resource!***
