

**The world this week**  
**Museum on wheels**

# Where are we this week?

This country begins with an 'I'

Its national animal is a tiger!

It's in Asia, near China.

# It is India!

It's the seventh largest country in the world with a population of 1.43 billion.

Its capital city is New Delhi.

UTC +5.5 hours

Namaste!

# Why is India in the news?

Because schoolchildren in small villages can now see exhibits from Mumbai's biggest museum...

...inside a specially designed bus!

**Museum on wheels drives around rural parts of India showing historical and art exhibitions to schools that don't have access to museums.**

*The exhibits include old coins and books, traditional games, costumes and even dinosaurs!*

*...that way children can see rare treasures and learn about history, science and art!*

# Over to you!

Using the world map, where is India in relation to the Tropics and Equator? What do you think the climate is like?

Do you know any facts about India?

Do we need museums?  
Why/why not?

# Over to you!

If you were to open a museum, what would you show there? What do you wish people could learn more about?

***Thank you!***

***We'll see you next week for your new  
"The World This Week" resource!***
